

invites you to attend

**Deaf in a
Hearing World
Saturday,
March 12th, 2 PM**

Donna Salamoff would like to introduce you to her world and her culture. Donna is a strong believer of incorporating the arts into each child's life.

What is deaf culture?

Deaf culture is a set of social beliefs, behaviors, art, literary traditions, history, values, influenced by deafness which use sign language as the main means of communication.

Ms. Salamoff will share examples of what deaf culture entails. We will discuss different types of hearing loss and different aids that are available, also resources that are available to the deaf and hard-of-hearing. We will also explore the world of sign language.

Games will be played that require the use of our eyes, our bodies and our facial expressions. These games will be played in **SILENCE**.

Come and enjoy her World, her Culture!

Placitas Community Library

Gracie Lee Community Room
